NEOSHINE®

Frustrated with polishing?

Look, every dentist can agree that when it comes to polishers, things can get more confusing than advanced college calculus. We know how you feel, dentists want a polishing system that's simple and that works.

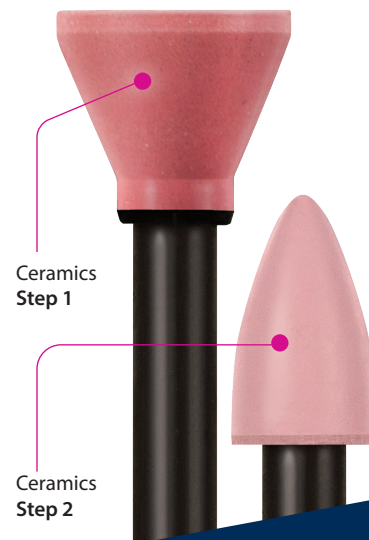

Name a surface, we've got a polisher for that!

Introducing the cool new kid in class, NEOSHINE from MICROCOPY. Comprised of two polishers for use on Composite and all Ceramics. NEOSHINE's easy Color ID system organizes polishers by materials and steps. Most importantly, NEOSHINE achieves a smooth mirror-like shine like nobody's business.

Easy 2-step polishing

NEOSHINE sterile polishers are a simple two-step system to make for a sweet shiny polish. Its cups and points are mini size – meaning you can literally polish anywhere. Take it for a test drive!

- Polishes to a smooth mirror-like finish.
- Easy Color ID system helps you pick the right polisher for the right surface.
- Miniature size enables you to thoroughly polish all tooth anatomy.

"The speed of polishing and quality of the resulting surface finish are second to none!"

Joshua Howard DMD
Dover, NH
